

## SILS Information Bulletin

Number: 09-02 New Price Structure for USGS Maps

Date: February 5, 2009

The U.S. Geological Survey (USGS) will be implementing a new price structure for various map products, effective **March 1, 2009**.

- The price for the USGS Primary Series topographic quadrangle maps (7.5 minute - 1:24,000, 1:25,000, 1:20,000 scales; 7.5 x 15 minute - 1:25,000 scale; Alaska 1:63,360 scale) will increase from **\$6 to \$8** per sheet.
- The price for most other USGS map titles and scales (including 1:100,000-scale series, 1:250,000-scale series and smaller scale topographic maps as well as thematic maps) will increase from **\$7 to \$9** per sheet.
- The price for National Earthquake Information Center (NEIC) maps will increase from **\$10 to \$12** per sheet.
- Prices for select large format maps will vary by size. Prices for specific map titles may be found at <http://store.usgs.gov>
- Geologic quadrangles and thematic map prices will vary from **\$9 to \$80** per title depending on the number of sheets and/or whether the product is produced using the print-on-demand process. Print-on-demand thematic products will be priced at \$5/sq. ft.
- For more information see our FAQs at: [http://ask.usgs.gov/prices/faqs\\_prices\\_usgs\\_products.html](http://ask.usgs.gov/prices/faqs_prices_usgs_products.html) or contact the USGS Science Information and Library Services (SILS) at 1-888-ASK-USGS, option #1.
