**Description of Map Units**

**Buckra Marl (Upper Cretaceous)**
- The Buckra Marl consists of very dark gray calcareous clay, gray calcareous clay, and brown calcareous clay. The unit is typically less than 10 feet thick and rests unconformably on the Tokio Formation.

**Toro Formation (Upper Cretaceous)**
- The Toro Formation consists of gray and black calcareous clay, fine to very fine-grained sand, and gravel. The unit is generally less than 50 feet thick and rests unconformably on the Buckra Marl.

**Woodbine Formation (Upper Cretaceous)**
- The Woodbine Formation consists of very dark gray calcareous clay, gray calcareous clay, and black calcareous clay. The unit is typically less than 10 feet thick and rests unconformably on the Toro Formation.

**Shelbyville Marl (Cretaceous)**
- The Shelbyville Marl consists of very dark gray calcareous clay, gray calcareous clay, and black calcareous clay. The unit is typically less than 10 feet thick and rests unconformably on the Woodbine Formation.

**Canebrake Formation (Upper Cretaceous)**
- The Canebrake Formation consists of very dark gray calcareous clay, gray calcareous clay, and black calcareous clay. The unit is typically less than 10 feet thick and rests unconformably on the Shelbyville Marl.

**Trinity Group (Lower Cretaceous)**
- The Trinity Group consists of gray calcareous clay, gray calcareous sandstone, and quartzite. The unit is typically less than 10 feet thick and rests unconformably on the Arkansasia Formation.

**Arkansasia Formation (Upper Cretaceous)**
- The Arkansasia Formation consists of very dark gray calcareous clay, gray calcareous sandstone, and quartzite. The unit is typically less than 10 feet thick and rests unconformably on the Woodbine Formation.

**Cretaceous**
- The Cretaceous is a geological time period that lasted from about 145 to 66 million years ago.

**Mesozoic**
- The Mesozoic is a geological era that lasted from about 252 to 66 million years ago.

**Cenozoic**
- The Cenozoic is a geological era that lasted from about 66 million years ago to the present day.
