INFORMATION CIRCULAR 10

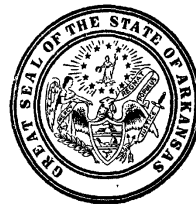

# List Of Arkansas Oil & Gas Wells

---

DATA FROM NOVEMBER 1, 1936 TO JANUARY 1, 1955

---

Compiled by WALTER L. DOBIE  
and HOMER D. HUGHES

LITTLE ROCK  
1956

**Mr. O. C. Bailey, Chairman  
Arkansas Oil and Gas Commission  
Trimble Building  
El Dorado, Arkansas**

**Dear Sir:**

We submit herewith a "List of Arkansas Wildcat Wells" drilled from November 1, 1936 to January 1, 1955. "Information Circular 10" of the Arkansas Geological Survey, published in 1937, gave a "List of Arkansas Oil and Gas Wells", up to October 31, 1936. This publication was so well received that it was considered advisable to bring the list up to date by the present publication.

The list is restricted to wildcat wells, and to those Oil or Gas Fields containing less than ten wells. This data was compiled especially for those interested in the exploration for oil and gas, and a list of field wells would have added little as an aid to prospectors.

**Respectfully submitted,**

**Walter L. Dobie  
Geologist**

## INTRODUCTION

The principal sources of information for this report were the records of the Arkansas Oil and Gas Commission, various published reports by members of the Commission, and the information obtained from the Arkansas Resources and Development Commission. However, the early years covered by this list were before the formation of the Commission, so it was necessary to dig out the information from various sources such as Natural Gas Statistics by the Bureau of Mines, the National Oil Scouts Year Book, the reports of the Arkansas Board of Conservation, the information contained in Information Circular 10, and information obtained from the records of oil companies operating in Arkansas.

There are undoubtedly some wells which have not been included in this list, and also some electric logs which we do not have. Any information as to wells or electric logs not on this list would be appreciated by the Arkansas Oil and Gas Commission. They could be included in any future lists.

We have included four tables along with the list of wells.

Table I contains information concerning the number of oil wells, gas wells and dry holes drilled in South and East Arkansas, and in Northwest Arkansas; also the total number of oil and gas wells and dry holes drilled in the state. There is included also, the amounts of oil and gas produced between January 1, 1936 and January 1, 1955, and the cumulative production of oil and gas up to January 1, 1955.

Table II contains information concerning the number of oil and gas wells and dry holes drilled from January 1, 1936 to January 1, 1955 by years, and also the production of oil and gas in Northwest Arkansas, South and East Arkansas, and the entire State, by years from January 1, 1936 to January 1, 1955.

Table III contains information as to the number of oil and gas wells and dry holes drilled from January 1, 1936 to January 1, 1955 in Northwest Arkansas, South and East Arkansas, and the entire State, by years. The wells are also classified as to field wells or wildcat wells.

Table IV is a chronological list of oil and gas field discoveries in Arkansas from January 1, 1936 to January 1, 1955 by years. The fields discovered each year are listed alphabetically in that year.

## ACKNOWLEDGMENTS

We are pleased to acknowledge assistance in the assembling and preparation of the data from members of the staff of the Arkansas Oil and Gas Commission, namely, Irene Bodenhamer, Jessie Ruth Wood, Eunice Murphy, J. W. Sanders, G. E. Goodwin, Ralph Dumas and Paul Horton. We also wish to acknowledge our appreciation for the information obtained through the assistance of companies and individuals engaged in the production of oil and gas in Arkansas, and wish to thank them for their cooperation and support.

**TABLE I**

Summary of Statistics on Arkansas Wildcats From January 1, 1936 to January 1, 1955

SOUTH ARKANSAS	Number of Wells Drilled		Production	
	1/1/36 to 1/1/55	Total	1/1/36 to 1/1/55	Cumulative
Oil wells (Prod. in Bbls.) -----	3,216	9,379	494,501,914	913,457,914
Gas wells (Prod. in MMCF) -----	41	445	867,439	1,099,896
TOTAL -----	3,257	9,824		
Dry Holes -----	2,182	3,922		
TOTAL -----	4,904	13,746		
NORTHWEST ARKANSAS				
Gas wells (Prod. in MMCF) -----	90	371	119,410	218,456
Dry Holes -----	141	403		
TOTAL -----	231	774		
ENTIRE STATE				
Oil wells (Prod. in Bbls.) -----	3,216	9,379	494,501,914	913,457,914
Gas wells (Prod. in MMCF) -----	131	816	986,849	1,318,352
TOTAL -----	3,347	10,195		
Dry Holes -----	2,323	4,325		
TOTAL -----	5,670	14,520		

Arkansas Oil and Gas Commission—Cumulative Production.

Oil	933,828,223 bbls.
Discrepancy	20,370,309 bbls.

Discrepancy formerly noted (See Secondary Recovery of Petroleum in Arkansas—Page 4). This occurred before 1930.

Gas	1,113,454 MMCF
Discrepancy	204,898 MMCF

The compilation of production data for gas in South Arkansas by the Arkansas Oil and Gas Commission apparently started January 1, 1936. Production of gas from January 1, 1936 to January 1, 1955 in the above table, was 867,439 MMCF, while the cumulative production of gas by the Arkansas Oil and Gas Commission to January 1, 1955 was 865,788 MMCF, a difference of 1,651 MMCF.

U. S. Bureau of Mines—Natural Gas Statistics—Cumulative production of Arkansas up to January 1, 1936	323,346 MMCF
From 1/1/36 to 1/1/55	1,038,956 MMCF
Cumulative Production to 1/1/55	1,362,302 MMCF

The difference between the cumulative production of gas for the entire state up to January 1, 1955, as given above, 1,318,352 MMCF, and the cumulative production of gas up to January 1, 1955 as given by the Bureau of Mines—Natural Gas Statistics, 1,362,302 MMCF, amounts to 43,950 MMCF.

TABLE II

Number of Wells Drilled and Production in Arkansas by Years—From January 1, 1936 to January 1, 1955

Year	Number of Wells Drilled					Gas—Millions of Cubic Feet			Oil and Condensate— Barrels
