OUACHITA FOREST SUPERVISOR NAMED

A. C. Shaw Transferred From Pensacola, Fla., to Hot Springs Post.

From the Osceola Correspondent: Washington, April 28. A. C. Shaw, supervisor of the Choctawhatchee National Forest, with headquarters at Niceville, Florida, was announced today by District Forester J. O. Kinler of the Eastern National Forest Service, United States Department of Agriculture, as the new supervisor of the Ouachita National Forest.

Mr. Shaw will take charge of the Forest Service and the forest tract in the state of Arkansas in a couple of weeks, upon his arrival.

Mr. Shaw has been transferred because of the urgent need of an additional forest supervisor and the importance of the Ouachita National Forest.

G. C. Bolton Appointed Assistant Supervisor of National Park.

Special to the Gazette.

Hot Springs, April 28—Dr. Hugh Deavil, supervisor of Hot Springs National Park, announced today the appointment of Chief Clerk George C. Bolton as the assistant supervisor of the Hot Springs National Park.

Dr. Deavil has been in the park service for 17 years, and has served as a district forester in the White Mountains, New Hampshire, and as a regional forester in the eastern United States.

A. C. Shaw Named Supervisor of Ouachita National Forest.

Special to the Gazette.

Hot Springs, June 16—Arnold C. Shaw today succeeded the late J. H. Clarion as supervisor of the Ouachita National Forest.

The Ouachita National Forest is located in the state of Arkansas, and is one of the largest national forests in the United States.

ANNUAL REPORT ON ARKANSAS FORESTS

Government Bought 99,914 Acres During Fiscal Year, Survey Shows.

In the fiscal year ending June 30 the government acquired 99,914 acres of timber land in the Arkansas National Forests, the animal resources, the wildlife resources, the scenic resources, the water resources, the recreation resources, and the economic resources.

The total area of the Arkansas National Forests was 724,500 acres.

Timber cutting in the Ozark and Ouachita forests showed an increase of 2,215,000 board feet, or 317.5 million cubic feet, over the previous year.

Land to Be Added to National Forests in Arkansas.

Washington, May 12—A purchase of 2,253,168 acres to be added to national forests in the eastern half of the state of Arkansas was approved today by the National Forest Reserve Commission.

The purchase will bring the total area of the national forests in the state of Arkansas to 3,253,168 acres.

LAND MANAGEMENT BILL TO HELP STATE

The federal land management bill which passed the House last week and is scheduled for favorable action in the Senate soon will be of great benefit to Arkansas, according to Senator John B. Smith, Little Rock, Ark.

"The bill will authorize the government to purchase privately owned forest lands, and the proceeds will be used to improve the management and development of these lands. The proceeds will help to finance the construction of roads, bridges, and other public facilities, and to improve the economy of the state," Senator Smith said.
