Oil Interest Strong

In East Arkansas

Stutts—Oil-estate oil companies are showing considerable activity in the search for oil in eastern Arkansas, according to Mr. M. McCullum, secretary of the Eastern Arkansas Development Bureau of Natural Resources, recently organized in Stutts, Ark.

The interest is due to the reported presence of natural gas in Stutts area, and the information furnished by the Stutts Gas Co., which has already drilled several test wells.

The activities of major oil companies in the area have increased, according to Mr. McCullum. He said that there is a good possibility of finding oil in the area.

Plans Made to Drill Tests Near Cassville

Oklahoma Gas Co. has moved equipment to Cassville, preparatory to drilling two oil tests.

Work of erecting the rig and fencing on the Cassville farm has begun. The rig includes a 100-horsepower engine, a 200-horsepower dynamo, and a 100-horsepower compressor.

The Jay Oil Co. is financing the development of the test wells. The company has completed a well on the Trice farm, and has another well on the Inman farm, both in the Cassville area.

New Arkansas County

Oil Test Near DeWitt Reaches 3,200 Feet; Duller in This Week.

DeWitt, June 4—Drilling at the oil test near DeWitt, 13 miles south of the town, has reached a depth of 3,200 feet. The well is duller than expected.

Oil-Gas Test Near DeWitt To Be Started This Month.

DeWitt, May 10—With the block of acreage almost complete, C. W. Robinson and others will begin drilling for oil and gas near DeWitt before the end of May. C. P. Porter, in charge of the Blackwell Oil and Gas Co. of Cuba, Okla., has operations in Texas, Louisiana and Arkansas, and is in DeWitt today making preparations to start the test. The test will be located on land owned by Earl F. Fox, six miles southeast of DeWitt.
DRILLING IS SUSPENDED

Operation at Weaver Well Hold Up by Disappearance Within Company. 1922-2

Special to the Gazette.

Stuttgart, Jan. 12—Drilling has been suspended at the Weaver well, south of this city, because of the disappearance of a man. Mr. J. Verdenk, in charge of the outfit, was not accounted for at about 2 a.m. last Saturday. Attempts were made to find him in the well area, but the operation has been suspended until the man is found. It is not known if he is alive or dead. Work has been held up pending his return.

To Drill Second Test Well Near Stuttgart.

Special to the Gazette.

Stuttgart, April 11.—Plans for sinking a second test oil well about 20 miles south of Stuttgart were revealed today after operators announced that drilling at Poole No. 1 had been abandoned at 5,335 feet.

Operators plan to sink the second well in the sand found at 1,720 feet, where they said there was a "plentiful showing of oil." Drilling of the new hole is expected to be completed quickly, as the log from the Poole test will be available. The well rig will be refurbished and work will start within 18 days or two weeks.
