Group to Visit Test Well Near Leola Today

Special to the Gazette.

Leola, Oct. 18.—Persons interested in the drilling of Leola, City, have been promised a tour of inspection of the drill well, which has been spudcd for some time, and will he brought in at an early date.

This project is known as "The Leola," and has been drilled for the last six months, and is to be completed in the next few weeks. The location of the well is near the city limits, and will be a great asset to the city.

The well, Mr. Wisner said, has been drilled to a depth of 2,500 feet. The test contract calls for a $5,000 investment. In the event oil is not found at that depth, Wisner said arrangements would be made to go to 3,000 feet, and that he was not entirely satisfied with the standards of the equipment. But he said the surveying and location at the well were all completed.

Mr. Wisner said the well is located in the thirtieth section, and it is expected that the job will be completed in a few months. The well will be operated by the Love Brothers.

The Love Brothers have a delegation of farmers in the section, and are expected to have a visitor in the event operations are successful. The change that the well will be a well is expected.

The well is located in the western part of the state, and is expected to be successful.

The well is expected to be successful, and it is expected that the well will be completed in a few months.
